New CPC Tests ...

WMXY-720, P. O. Box 1114 - LaGrange, GA 30241 will conduct a DX test Monday morning, January 13, from 0200-0230 ELT with Morse code and ID's. Our thanks to Mr. Ted Ronneburgur, Chief Engineer. Arranged by J. D. Stephens for the IRCA.

KDIO-1350, P. O. box 115 - Ortonville, MN 56278 will conduct a DX test Monday morning, January 27, from 0100-0230 ELT with Morse code and voice ID's plus polka music. Our thanks to Mr. James Egert, owner. Arranged by J. D. Stephens for the IRCA.

And that's it for this edition. 73.

From the publisher ... Our thanks and apologies to DDXD editor Bill Hale ... for having to type 21 pages of loggings ... and for not being able to squeeze more than 13 pages of DDXD into this issue. The rest will appear next week while Bill soaks his fingers. Also, only the two DX tests added this week are described; see #12 for details of the others.

We've had two NRC members from widely separated areas wonder if someone was opening and reading DXN before they received their copy. If you suspect that your copy is being delayed, please contact me for details on how to follow up this problem. The National Radio Club in the past has been quite successful in tracking down this kind of activity; suffice it to say that those who read for free are no longer wearing a blue uniform!

They joined ... Vernon Paroli, Harvey, LA; Kevin Parrish, Hoboken, NJ; Martin Egan, New York, NY.

DXChange ... Two NRC'ers are looking for loop antennas: Clifford Schnauffer - 444-1B Edgar Rd. - Elizabeth, NY 07202 is looking for someone who makes loops; Dan Welton - 151 Kneen St. - Shelton, CT 06484 needs an amplified ferrite rod

1480 WCIN OH Cincinnati: reduce powers to 470/409 U1

GRANTS TO EXISTING FACILITIES

640 WWJZ NJ Mount Holly: day power to 50000 watts

820 WSCR IL Chicago: delete night power, becomes 5000 D1

850 WREF CT Ridgefield: city of license to Ridgefield Center, power to 5000 watts

1340 WJPF IL Herrin: reduce powers to 770/770, changes in antenna system

OTHERNESS

790 WQSV TN Ashland City: silent station is ON THE AIR

960 WKLO MA Fitchburg: station went SILENT 12-4-91 and owners, who have not been able to attract a buyer, have no plans to return to air.

1010 WXLX NC Albemarle: facilities of this silent station have been donated to Agape Faith Church which intends to return it to the air soon.

1220 WAYE AL Birmingham: station is SILENT

1230 WAZF MS Yazoo City: station is SILENT

KZNE NE Chadron: a NRC member recently wrote to the FCC concerning the status of this long standing but unbuilt Construction Permit and was informed that the CP had expired and that no FCC form 302 or 307 (license application or request for an extension of CP) had been filed. Of course, this does not necessarily mean this CP is dead, that doesn't happen until the FCC formally cancels and deletes the CP. It is common for CPs to expire and remain dormant until an eleventh-hour request to extend the CP keeps it alive, sometimes for a number of years. This is, however, a fairly good sign that these new stations stand a good chance of eventually dropping by the wayside. There are several other stations in the member's inquiry that fit these same parameters and they will be so noted below.

WSNM TN Gatlinburg: see KZNE-1230 comments above.

Jerry Starr
c/o WHOT Radio
4040 Simon Road
Youngstown, OH 44512-1320

1340 WDXW MI L'Anse: see KZNE-1230 comments above
WNBS KY Murray: station is SILENT, taken off the air by manager Tony Parham after the owner failed to pay employees' salaries (Lexington Herald-Leader 12-7-91) and in a rather unusual move the co-owned TV station was also taken off the air at the same time. The owner is the grandson of Murray's turn-of-the-century experimenter Nathan B. Stubblefield, credited in some corners as the first person to demonstrate radio telephony, many years before Marconi, generally considered the father of radio, took to the airwaves. The station's call are his initials. He is probably spinning like a lathe.
1400 WTJH NH Roxbury: see KZNE-1230 comments above
1410 WLBK KY Bowling Green: station is SILENT and there are no plans to ever return it to the air.
1470 WRQQ PA Farrell: silent station is ON THE AIR relaying WYWR-1330 Campbell, OH. Call may be changed soon.
1490 KMCW MT Great Falls: see KZNE-1230 comments above
1530 KOPY TX Georgetown: silent station is ON THE AIR

Topeka has WREN again

WREN-AM (1250) is back on the air. I've been hearing this for several weeks from friends who listen closely across the radio dials.

WREN, one of Northeast Kansas' oldest radio stations, went dark in 1987. It is now reborn as a southern gospel station transmitting at 5,000 watts during the day and 100 at night.

Mike Ginter of Kansas City, Mo., has taken over the license and the transmitter and almost has the station up and running from the Grantville tower location.

Today, WREN begins its broadcast day at 7 a.m. and will go up to 14 hours, Ginter said Monday. The number of hours on the air will increase as Ginter has personnel to operate the station.

The station began testing its signal Nov. 16 and actually began broadcasting last week on a limited basis.

Ginter told an interesting story about how he came to bring WREN back.

The native of Detroit said he had moved to Kansas City in 1975 and managed Jimmy Swaggert's radio station there until 1980, then began working for Satellite Radio.

Today, he is president of the firm which has stations in Boston, Detroit and Houston, and a construction permit for a Gladstone, Mo., station.

Ginter found WREN in a search of the radio dial.

"I wanted to find something in the mid-range because there just wasn't anything in the Kansas City area," he said. "What I found was WREN and it was dark. I managed to contact all the parties involved and convince them to agree to sell me what was left."

He said the license had to be renewed, then transferred to him.

"We managed to do it on exactly the last possible day. The FCC (Federal Communications Commission) OKed it on the last day," he said.

What Ginter received in his purchase was the license for WREN and the transmitter and towers — four 100-foot towers east of Topeka on US-24 highway at Grantville.

What he found when he got there was unbelievable, he said.

"You wouldn't believe what has

been stolen. The wire that goes from the transmitter to the tower was ripped out. What they didn't take, for some unknown reason, they ruined," he said.

"My background is in sales, but I have enough of an engineering background to be able to get this station back on the air," he continued.

He said a couple of radio stations pitched in some wiring and equipment to help him rebuild.

"We have a new (to us) state-of-the-art Continental transmitter and we're up and running."

He said WREN will be a commercial station selling advertising to support the format of inspirational programming. Some of the programming will come from satellite network and some will be locally generated.

His philosophy about bringing WREN back to Topeka and his going into this venture goes like this: "WREN was reserved for a special place and for special times."

MEDIUM WAVE RAMBLINGS

- John Sheehy of Oakkosh (b'goash), Wisconsin reports for the first time with an unID. Let's see if we can solve the dilemma before the lakes thaw. That gives you until about April, hi. No problem about the lakes thawing near another new reporter's DX shack in Live Oak, Florida. Whodat?? David A. Klemp's DX also graces the pages of DX News for the first time. Welcome aboard, both of you!! Report often.
- I get at least one letter every week bearing an uncanceled stamp. Maybe the Post Office wouldn't have to raise the price of stamps if they'd cancel them all in the first place. Do they think I'm that honest (read: stupid) not to re-use these stamps. No way, José! But I do use them for club-related mail, (honest). This week brought two! One from Marietta, GA and one from Willoughby, OH!
- Mary loggings had to be edited out due to legibility problems. Please tidy up your reports, if there is even a small chance of my having trouble deciphering your writing.
- My vote for cutest PSA this year HAS to be the SMOKEY (the) BEAR one.
- Please ignore/excuse any mistakes, misspellings, etc., as with a column of 21 pages, my FunMeter is maxed out this week. You are about to embark on a DX journey, the likes which have not been seen by this editor . . . EVER! Enjoy, and we'll see you next issue!

SPECIAL

- 560 WYOR TN BRENTWOOD - 12/6 1742 good with C&W, local anncts & call IDs; **partial format change (not 100% BRN anymore)**, although BRN programming hrd later in the evening (DS-TN)
- 580 CKWW ON WINDSOR - now carries Sports Final; 1st noted on 11/30; used to have to get this on WKNR-1220 but nice to have it on a local now; as an added bonus there's less splatter on 570/590 now that they have TLK instead of mx AN (REH-ON) [Wish I could get Sports Final in CA. I must be in the null of all the stations which carry it, hi - Ed.]
- 590 WMBS PA UNIONTOWN - 11/29 0131 with sign-off annct → the Our Father (prayer) sung, 0136 sign-off, NRC Log sez 24 Hrs but apparently not always (RF-OH)
- 640 WCRV TN COLLIERSVILLE - Log Update - mention of 50 kw power; 50 kw Voice of Memphis and the Mid-South, new address: 4390 Poplar Memphis, TN 38117; GM = Mark Loeffler, Tel 901-763-4640 (RJT-NC)
- 740 WVLN IL OLNEY - 12/6 0416 seems to be AN with UC; dual call ID: 740 AM WVLN and 92.9 FM WSE; Log sez 250 watts but sounded more like the 7 watts listed in BYB (REH-ON)
- 780 CFDR NS DARTMOUTH - 12/3 0619 with talk about the Canadian GST (goods and services tax); gave 780 CFDR call ID and 7:19 TC then → mx; poor in WBBM null with terrible CKLW/WJR splatter; ex: 680; NS #10 (REH-ON)
- CFDR NS DARTMOUTH - 12/7 1705-1734 ROK mx, frequent IDs for All Hit CFDR - 780, Skywatch Weather with snow, an ad for Woodlawn Sports; all over WBBM; never hrd before, **so move from 680 must have occurred** (TF-CT)
- 790 WQXI GA ATLANTA - now carries NBC Talknet 1900-0100, 0100-0500 portion replaced with Unistar AM Only NOS/AC feed (EB-GA1)
- WQSV TN ASHLAND CITY - 12/18 1236 xint with C&W, Nashville ads, AM 790 WQSV and Sycamore Valley slogans; ex: silent WAJN (DS-TN)
- 850 WYDE AL BIRMINGHAM - 12/11 noted with **format change to EZL**; legal ID All day, all night, Easy WYDE Birmingham → USA Radio Net Nx at :00 (RJT-NC)
- 970 WAMD MD ABERDEEN - **sked is 0600-1900 daily**; has low power night only synchro on also (DS-DE)
- 1010 WERQ MD BALTIMORE - hrd with **new CLs**; ex:WYST (DS-DE)

- 1160 WOBN NJ LAKEWOOD - 12/3 1950 ex:C&W; now MoYL with generic 1160 AMIDs; sounds pretty canned (EJ-NJ)
- 1200 WSML NC GRAHAM - good → poor with WGKA splash with talk (some REL), local ads, mention of WSML Church of the Week, legal ID → ABC-I News, so format is now REL (EB-GA2)
- 1280 WWOK IN EVANSVILLE - Log Update - new address: P.O. Box 297 Evansville, IN 47702-0297; GM = Dave Lehman, Tel 812-477-8811 (RJT-NC)
- 1320 WQIK FL JACKSONVILLE - good with WJXT Channel 4 TV news/weather/sports (DS-TN)
- 1330 WYPC OH WELLSTON - 12/2 0540 poor with satellite NOS (Unistar, I believe); 0600 ID: This is your perfect companion, the new WYPC-AM Wellston - Jackson → CNN News; 1330 #60 and ex:WKOY (REH-ON)
- 1380 KGLD MO ST LOUIS - up for sale, along with FM sister WKBQ-FM 106.5 Granite City, IL (EB-GA1)
- 1390 WCSE SC CHARLESTON - 12/6 1818-1825+ xint with call-in talk, phone 577-1390, assorted Charleston ads; not 100% [FM (DS-TN)]
- 1440 KMLB LA MONROE - 12/6 0403 with clear, legal ID; Log shows this as KJLO; when did they change back to KMLB, or was KJLO CL ever used? (REH-ON)
- 1460 WIMX PA HARRISBURG - this is indeed the correct call here despite what they might claim; WMIX is still very much in use on both AM & FM in Mount Vernon, IL (JS-OH)
- WIMX PA HARRISBURG - the CLs here are WIMX; they use the slogan Mix and often give their calls as as WMIX or W-Mix; this is also the case of WWMX-106.5 Baltimore, using the same Mix format; about the only thing this does is Mix one up! (DS-DE)
- 1470 WWWW OH TOLEDO - this indeed the call here, change from WOHO was listed in AM Switch Volume 57, Issue 29, don't know why it wasn't changed in Log (JS-OH)
- 1480 WMAX MI GRAND RAPIDS - is being donated to Grand Valley State University, pending FCC approval; in early 1992 CLs will change to WGVU, and the station will simulcast WGVU-FM 88.5 (Allendale), whose format is JAZ mx with NPR Nx and features (PLB-MI)
- 1520 WHIC KY HARDINSBURG - 12/4 2330 noted with sports call-in show (satellite feed) and sign-off of WHIC-FM @ 2400; the AM carrier went off at 0001, left on past sunset; strong and often over WWKB and causing a low het (DS-DE)
- 1590 WKTP TN JONESBORO - for Bob Giffert, this is address for WKTP: Box 5188, Johnson City 37603; if you find out their phone #, let us know for the Log [Ed.-CA/TX]

UNIDS AND UNID HELP

- 540 WKJS PA CANONSBURG - 10/25 KS-OH's unID is probably this, not WYLO-WI, considering the DXer's QTH (TH-CA)
- 690 WPDQ FL JACKSONVILLE - a good possibility for LMC's unID of 10/31 (Issue 10) (REH-ON)
- WNNT VA WARSAW - regular daytimer here, still on 690; only thing I can hear on 1580 is WPGC; WNNT gives AM-FM IDs, but have never hrd an FM frequency mentioned; as far as I know, they are still C&W mx as hrd American Country Countdown there last weekend (BG-VA) [Fine report, but you listed this for UNIDS and UNID Help . . . I don't get it -Ed.]
- 740 UNID ?? - 12/7 0527 strong SS on SE/NW loop; no sign of CBL until 0530 when a strong tone appeared w/SS talk still in null; three NBC-style tones from the unID SS at 0543; could this be WAC Puerto Rico? (LK-ON)
- 750 UNID ?? - 11/29 1625 sounded like Russian or SS (JS-WI)
- UNID ?? - 12/10 2213 in null of WSB with a soft ROK song, then heavier ROK song; QRM from another unID (see below); no ID after an hour; clearly a U.S. station by content and discussion; SE/NW loop (LK-ON)
- UNID ?? - 12/11 2108 clear mx with a strong West Indian flavour; EE male voice discussing something but, although the mx was very clear at times,

- the voice was muffled so that I never could ID or get a feel for the locale; my suspicion is Jamaica (LK-ON)
- 820 UNID ?? - 11/29 2104 1930s-style mx and jazz, ie *Red Wagon* by *Oscar Peterson* on show called *Wax Works Radio Show*; very strong in null of CHAM with severe fade and QRM from CFJR and CHAM to a complete fade (LK-ON) [That sounds like something WNYC would program? -Ed.]
- 850 UNID ?? - 11/26 0101 REL show, mentions of Chapel Hill, NC; no WJAC/WWREKOA (JK-VA)
- 920 WWSF AL ANDALUSIA - this is *Karl Jeter's* unID in Issue 8; they simulcast WWSF-FM 98.1 in that same city, and serve the Gulf Coast of FL/AL; the FM has been heard via trop in nearby Woodstock (EB-GA1) (TH-CA)
- 970 UNID ?? - 12/5 2003 out from under CKCH for a few seconds with ... brought to you by the Association for Public Broadcasting then gone; WHA at 51 watts seems unlikely (DE-PA)
- UNID SC - 12/12 1706 nx for SC on *NewsHour* with promos for AP News at 1730 and coach's show with *Ellis*, BKB coach of ? University, during the hour; I suspect WJMX, of course; can anyone confirm this nx format? (MJ-MI)
- 1020 UNID ?? - 12/7 0638 in KDKA null with heavy CFRB QRM with jx *Do you remember the times of your life?*, then a 1964 news review and mx; local ads but no city or ID mentioned, but mention of *Morristown State Police*, SE/NW loop; no ID by 0707 fade (LK-ON)
- 1030 UNID ?? - 12/1 0015 over/under WBZ with C&W mx; caught the start of a K call; west/midwest coming in good this AM; haven't hrd Wyoming from this QTH yet (JK-VA)
- 1250 UNID ?? - 11/26 0035 mentions of *Danville & Eagles on Danville's Sports Channel* (JK-VA) [WDVA Danville, VA - Ed.]
- 1280 WADO NY NEW YORK - could this be LK-ON's SS unID of 11/7??? (BG-VA)
- 1320 WKIN TN KINGSPORT - probably KVJ's unID with *WEYE-104.3* IDs; per the *FM Atlas*, WEYE-104.3 is Sargolinsville, TN, a few miles from Kingsport (DS-TN)
- 1330 UNID ?? - 12/3 0530 ending REL pgm called *The Radio Revival Hour* (REH-ON)
- 1340 WWPZ MI PETOSKY - this may be *Shawn Axelrod's* unID from Issue 10, provided they switched from talk; WBGZ is 1570 in Alton, IL (EB-GA1)
- 1350 UNID ?? - 12/1 1837 fair to good with *Kansas City Chiefs* FB; might this be KMAN or maybe even KGHF? (RD-IA)
- 1360 UNID ?? - 12/6 2130 strong FFc in WDRC fade w/FF POP mx; CJVL? (DS-DE)
- UNID ?? - 12/8 1708 Here's a mystery for you, gang. Somebody poor with promo giving phone number as *xxx-WVSJ*, that's *xxx-9875* → network sports update. Only the *W* in the calls is definite. I pieced the most likely phonetic combination together from the numbers, but nobody on 1360 comes close. (MJ-MI)
- 1400 UNID ?? - 12/6 2132 another strong FFc w/sports, ads; CJFP? (DS-DE)
- 1420 UNID PQ - 12/7 0100+ Telemedia FF Network 11 550 & 1340; I guess 550 would be CHLN; any ideas on the other two? FF also noted this morning on 1310, 1330 and 1460, among others; only 1460 was positively IDd (MJ-MI)
- 1490 UNID ?? - 12/1 0015 mostly heavy metal mx with mentions of *Gloversville, NJ*, and *Charleston's Amazing AM*, SFX jx also (JK-VA) [There is a WCZR in Charleston, WV, which according to the Log plays "ROK" mx ... so, maybe - Ed.]
- 1530 KXTD OK WAGONER - my smart money is this for *Karl Jeter's* unID of 11/3 (Issue 8); WWLS-640, one of KXTD's companions on that mini sports network in Oklahoma was noted by me 11 KVEG on 12/11 (RD-IA)
- UNID ?? - 11/29 0615 strong SS mx and talk but SS spoken very slowly [maybe it was an announcer after one *Speed Spanish* lesson, hi - Ed.]; loo SE/NW; over/under WDIZ and WCKY; the talk involved Mexico and Puerto Rico with a later discussion of Puerto Rico (LK-ON)
- 1550 WCTZ TN CLARKSVILLE - this is the solution to two recent unIDs relaying WYQC-102.9; by the way, WQZQ-FM 102.5 has joined this *mini-network* (for FM DXers, they've had a power increase), and the slogan *Q102* is frequently used on all three stations (DS-TN)

- 1550 WCTZ TN CLARKSVILLE - 12/7 0305 poor with C&W tune and non-IDs: *The new country Q-102*, no CLs used until 0400 legal ID: *WYQC Shelbyville - Nashville*, WCTZ *Clarksville*; WPF's unID of 10/7 (Issue 9) (REH-ON)
- WTYR TN SODDY-DAISY - WPT's unID in Issue 9 running WYQC-102.9 (Shelbyville) is much more likely to be this; it's much closer, per NRC station maps ... (RJE-PA) [Oh, good. A fight, here, hi - Ed.]
- UNID ?? - 12/7 0150 w/Talknet, no ID at 0200, just seconds of pips (as if someone messed up at the news feed); pips were just a shade behind WWV, back to Talknet later; I observed the same thing on 740 last season, and someone reported that it was WIRJ (JR-NY)
- UNID ?? - 12/8 0128 very faint in the background with *Bruce Williams*; splatter from WQXR & KXEL make listening difficult; CBEN/WBSC/WCLY all off (JK-VA)
- 1570.8 UNID ?? - 11/28 2100 someone here hitting 1570 with C&W mx and EE anncr; sounded like syndicated pgm; direction seemed WNW/ENE; always faded out when anncr came on (natch) (RF-OH)
- 1580 WUIV NC ICARD TOWNSHIP - this is JR-NY's unID in Issue 7; they simulcast WNNC-1230 (TH-CA)
- WUIV NC ICARD TOWNSHIP - this is definitely JR-NY's inID in Issue 7; WUIV relays WNNC-1230 Newton, NC; they ID at :00 as *WNNC 1230 & 1580* (no mention of WUIV CLs); they run a mixed bag AC to C&W to OLD; slogans of *WNNC ARE radio 1-2-3* and they do have a 1-800-464-4091 for requests; as LSS approaches, WUIV mixes with WTKT-KY; I've written to WNNC inquiring about the dual frequency ID and will pass along any info ... if they write back (RJT-NC)
- UNID NC - 12/9 1659 after many mentions of Newton, IDd on the hour as *Stereo 1230 and 1580 AM*, WNNC; WNNC CLs are for Newton, NC on 1230; suspect this is WZKY simulcasting (MJ-MI)
- 1600 WIXY MA EAST LONGMEADOW - could be *Laura McCusker's* unID in Issue 10; station recently began simulcasting WAQY(FM) Springfield and will probably change its CLs shortly (DL-MA)
- UNID ?? - 11/22 1835-1847 good with *Focus on the Family* hosted by *Dr. James Dobson*; I don't know if it will help, but the signal (looping E/W) was such that it seemed to indicate someone on day power, perhaps out in the Rockies (RD-IA)

DX AND EQUIPMENT TESTS

- 1000 WKYB SC HEMINGWAY - 12/9 0125 very good, alone on frequency during WLUP SP with ET using 500 Hz tone; 0132 announced *This is WKYB, Hemingway, South Carolina conducting an equipment test*, then into mostly C&W mx; new (RF-OH)
- 1060 KPAY CA CHICO - 12/2 0330-0430 nothing, too much XEEP & KYW (RJT-NC) (REH-ON)
- 1290 KUMA OR PENDLETON - 12/2 0307 didn't give this a ghost of a chance, so was really stunned to get a *K U M A* CID; under WIRL in WHIO/CJBK null; OR #15 and 1st in over 15 years (REH-ON)
- KUMA OR PENDLETON - 12/2 0300-0310 nothing; log of WIRL, new (RJT-NC)

International DX Digest

Foreign DX Catches. Times are UTC; for ELT, subtract 5 hrs.

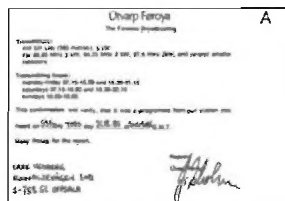

Perhaps you have been feeling "intimidated" by all of the fine loggings out of Newfoundland. But the purpose of these efforts is to spark our interest in all of the possibilities of foreign DX. I believe that this intention has already come true with so many additional reporters to IDXD this season, many of them new. And the more of us doing it, the more tips there are, not only with regard to timing and UNIDs, but also with regard to equipment and antennas.

Chris Vito wonders when I consider DX too stale to print. So far, no loggings have been omitted for being dated. This is largely a reflection of the timely submission of loggings by all reporters. If the time comes when I have to limit the number of pages to IDXD I would still include the more unusual loggings, even if dated.

Jim

- 720 **MEXICO UNID 0404*** 11/28, 29, 12/1. UNID in WGN null noted s/off w/Mexican NA. Heard mention of "capital de republica". And this was 720 not 730. Fair to good signal. [JB-OK] (I've heard this too. If it is the 1 kW Mexican (not in capital), then it gets out extremely well. I wonder if we're confusing the Mex. NA w/someone else's? Some of them do sound similar. Too bad that I can't locate my NA tape! It's not Nicaragua because I've heard them at the same time as this one; perhaps El Salvador (only other capital listed in Cam or SAM)? Or maybe a network station originating in a capital city? - Jim)
- 725 **UNID 0036** 11/28. Carrier noted. [CV-FL] (nothing listed, though Suriname used to be here - Jim)
- 770 **MEXICO XEATH, Monterrey NL** 0310 12/2. A near local here, fighting it out w/KOBB, very dominant, IDs most often as "La Region Montana" or "Montaña". [JB-OK]
- 810 **BAHAMAS ZNS-3, Freeport** 0224 11/26. Coming in fair, good w/relg show w/M preacher. Puerto Rico (?) and HJCY in and out. [JK-VA]
- 810 **COLOMBIA HJCY, Bogota** 0226 11/26. Coming in o/u ZNS-3 w/sound effects, mentions of CARACOL Colombia, M & W ancrs w/commercial. At 0229 ZNS fades back in. [JK-VA]
- 825 **ST. KITTS R. Paradise** 0230 11/28. Presumed w/het here. [JB-OK]

- 860 **CUBA R. Reloj** 0602 11/27. In w/RR in Morse code, pretty strong, also on 820, 960. [JK-VA]
- 900 **MEXICO XEW, Mexico DF** 0345 12/2. Dominant night-time station on 900. [JB-OK]
- 950 **DOMINICAN REPUBLIC HIG, R. Popular, Sto. Domingo** 0139 11/18. Very low-key ancr playing "recuerdos" w/many "popular" mentions. Great signal. [CV-FL]
- 970 **US VIRGIN ISLANDS WSTX, Christianstad, St. Croix** 2238-2300 11/28. Accented EE DJ playing mix of top 40 and calypso mx w/several "97-X" non-IDs and many local spots, including a promo for a battle of the calypso bands w/a St. Croix band pitted against a band from Antigua. Full ID at top of hour, and mostly dominant throughout the time heard. [CV-FL]
- 990 **MEXICO XET, Monterrey NL** 0356 12/2. Usually an equal opportunity occupant of this channel w/Memphis TN station. Loop splits nicely. "La T" featuring easy listening. [JB-OK]
- 1000 **US VIRGIN ISLANDS WVWI, R. One, St. Thomas** 2252 11/28. Brief check found them w/an excellent signal, heard a couple of local spots, totally owned the freq. [CV-FL]
- 1010 **DOMINICAN REPUBLIC HJJP, R. Comercial, Sto. Domingo** 0208 11/28. SS man w/TC and ID into very up-beat LA mx. [CV-FL]
- 1050 **DOMINICAN REPUBLIC HICB, R. Hispanola, Santiago** 0222 11/28. HI's in great tonight. This one w/several spots mentioning Santiago, including one for a "super farmacia", w/other strong SS (probably Cuba). [CV-FL]
- 1050 **MEXICO XEG, Monterrey NL** 1240-1300 12/4. Local here in OK, caught at dawn, S-9+. What a signal a 100 kW tx makes! Morning show local to Monterrey. M ancr w/lotsa personal messages (birthdays etc.), mx from time to time, singing IDs "La Ranchera de Monterrey". [JB-OK]
- 1080 **HAITI R. Nationale, Port-au-Prince** 0231 11/28. Two men in FF w/"R. Nationale" heard in passing. [CV-FL]
- 1090 **MARTINIQUE (ST. LUCIA) R. Caraibes** 0625 11/27. Fair w/FF, mx w/Carib sounding accents, M ancr. @ 0630 nx in FF, SS in background, similar to report of MC-MA 10/6/91. [JK-VA]
- 1140t **MEXICO Monterrey NL** 1225 12/4. Caught briefly before fade at 1225. Multiple mentions of Monterrey. [JB-OK]

- 1165 **ANTIGUA Caribbean R. Lighthouse** 0639 11/27. In good w/religious show, EE accented F ancrs, 3 tones (gongs) @ 0647 during show. @ 0700 beep, beep, beep on the hour, no WWVA (KVOO instead), no WJJD (hours don't match 0925-0230). [JK-VA]

- 1210 **UNID 0330-0445** 12/14. With WOGL running sx talk this night instead of mx, I was able to get a partial null on a station w/SS vocals. I think it might be Venezuela, but no IDs noted, and no NA at Venezuelan midnite (0400). [JR-NY]
- 1270 **CUBA CMHD, R. Reloj** 0635 11/24. Standing out o/domestics WXYT, WCBC, etc. w/Morse & voice IDs in SS. [JK-VA]
- 1280 **VENEZUELA UNID 2248-2252** 12/8. Briefly over the NA stations, no ID but YV because of ads w/amounts in Bolivares. [JB-NF]
- 1505 **ANGUILLA R. Anguilla** 0238 11/28. Presumed w/weak het here, rarely audio out of this one here. [JB-OK]
- 1555 **CAYMAN ISLANDS R. Cayman, Gun Bluff** 0240 11/28. Steady performer this season, usually in audio, and always better than 1205. Heard Cayman rebroadcasting BBC W5 "live" in // w/Sackville SW tx at 0300 11/30, as per WRTH. Heard also 0215 12/1. [JB-OK] 2324-2332 12/8 w/AIDS PSA, sports nx, fair signal. [JB-NF]
- 1570 **TURKS & CAICOS Atlantic Beacon** 0413-0500 11/26. In w/religious show in EE, mentions of St. Martin (island), "Atlantic Beacon" ID @ 0458, then s/off mentioning Caicos-Turks, 50,000 watt power ... P.O. Box 1777, Randall NC, so not 24 hrs NSP. WRSW o/u signing off slightly after w/FM-104 IDs, mentioning 325 watts. [JK-VA]
- 1570.8 **UNID** Het here each of last several evenings in November and noted on 12/1 & 2. Loops more or less E/W. Ideas? [JB-OK]

TRANS-ATLANTIC

- 1179 **SWEDEN R. Sweden, Solvesborg** 2152-2157 12/7. Fair w/EE program w/talk about drug abuse, mx by Louis Armstrong. [JB-NF]
- 1241 **UNID 2228** 12/7. Carrier here, but no audio - who's this? [JB- NF] (Some Africans still use old plan - Jim)

- 1269 GERMANY DLF, Neumunster 2258-2301 12/8. Solid signal w/clas mx, nx in GG @ 2300. Best of the DLF outlets this night. [JB-NF]
- 1278 IRELAND RTE 2251-2312 12/8. Poor w/deep fades, pop mx, no ID but distinctively accented DJ! [JB-NF]
- 1287 CZECHOSLOVAKIA RFE (syncros) 2243-2309* 12/8. Long talks in Slavic language (presume Czech), nx from 2300, off w/IS at 2309. Poor w/deep fades. [JB-NF]
- 1296 ENGLAND BBC, Orfordness 2234-2237 12/8. Guessed initially Finnish but turned out to be related Hungarian, EE talk w/Hungarian voice-overs, London mentioned often. Fair strength but Spanish QRM. [JB-NF]
- 1296 SPAIN R. Popular de Valencia 2240 12/8. Faded up o/BBC w/COPE net program // 1134. [JB-NF]
- 1305 SPAIN RNE5 (synchros) 2229-2233 12/8. SS talk and mx, poor but better than usual "best RNE5" on 1107 (obviously //). [JB-NF]
- 1314 NORWAY NRK, Kvitsoy 2225-2229 12/8. Monster signal, light clas and marches, M in Norwegian (SIO 555). [JB-NF]
- 1476 AUSTRIA ORF, Wein 0209-0223 11/30. Good w/old pops in EE and GG. M anc IDed @ 0222. [JB-NF]
- 1530 MADEIRA Posto Em. de Radiodif. do Funchal 2207-22117 12/7. Over WCKY w/football play-by-play, same as 666 but .5 to 1 sec. delay. Eventually succumbed to WCKY. [JB-NF]
- 1566 TUNISIA RTV Tunisienne 2256 12/6. AA mx into talks by M and W, 2300 talks by

M w/AA mx in background // 7475 kHz SW. Carriers also noted on 1521 (Saudi?), 1413, 1404, 1107 (Egypt?). 1098, 1044, 1035 and 666. [JF-NY] 2024-2030 12/7 weak w/Azores QRM, interviews in AA, AA mx, // 7475 SW. [JB-NF]

MARCONI ANNIVERSARY Today (December 8) is the 90th anniversary of the first (EVER) TA reception by Marconi. This was accomplished at a St. John's landmark that had the appropriate name of "Signal Hill" even before the Marconi experiments. I could not resist the temptation to DX from the same spot, even though the temperature was around -15°C. Propagation was below par, unfortunately! [JB-NF] (Did you see any ghosts wandering around? - Jim)

ERNEST R. COOPER - 5 ANTHONY STREET - PROVINCETOWN, MA 02657

Only 2 varies in since my last MUSING: WJNX-1330 & WTME-1240, the latter on a f/up to the station they relay, WKQT-Norway, ME. I was one of those in attendance at JOHN SAMPSON'S in 1964 when you were there, Dave, as a new teenage member! I enjoyed our annual GTG at Ray & Arlene Arruda's on the last day of NOV, and it was good to see MARC DELORENZO back in this area again and at this gathering, along with MARK CONNELLY, BURT ZACHS, WARREN GREENBURG, GLENN COOPER, BOB STONIER & RAY & myself. We came to the conclusion that perhaps the Thanksgiving day weekend isn't such a good time for this annual event, so next year, I believe it will be held on the 3rd Saturday of NOV, so make your plans now for 11/21 from 12 noon on. We have 2 semi-local NNY's (Notorious Non-Verifiers) in WADN-1120 & WMSX-1410. At Ray's, I saw his fine v/l from WYAK-1270. I, too, reported them the same day but didn't get a reply, so a f/up is out to his signer. (Buddy Womack was the CE there while I was doing the work at WDSC this past summer, he is also doing WDSC-DWS) DX: MM 11/4 WYAK-1270 in again w/12 in a row, I didn't stay to count. WOGL-1210 was off this AM, only a weak SS there. 11/5 local WNTN-1550 testing 2:39-3 AM. 11/6 Unn WRHD-1570 on top w/CW 1:54 AM. 11/8 I finally got enough for a report to WVKZ-1240, all news, but no verie yet, a month later. On SM 11/10, AU CX, 'The All New Mix 96' would seem to be WMYF-Taurinburg, NC and a tentative sent, no reply yet. (Tis they, simulcast of 96.5-DWS) 11/12 Good report on WFYV-1460 in deep AU, no reply yet. The EZL on 1550 turns out to be WBBH-FL, unn. 11/21 seldom heard but unn WCBG topping 1590 1:55 AM w/ "now 62 here in Hagerstown", station is licensed to Chambersburg, PA. 11/23 2AM WKTP topping 1590 today and report sent, they relay WKPT-1400 and gave dual ID. Thanksgiving Day 11/28 WARA-1320 has quit ANING I believe, the channel belonged to WKAP-1320 & CKEC-NS. I feel a little like the recently released hostages in that I seem to have been relieved of my twilight killer buzz! 12/3 4:42 PM checking 1240, still minus a local, and a real surprise came through in WSYY "Sunny 95" (NRC Log sez "Sunny 98"-correct this!). After 5 PM, WSKI took over. 12/4 WSME-1220 tops here at 4:15 PM, then to 1200 and another surprise, WSMC-NC on top for a few minutes then WKIT-ME came in, these in WKOX's null. On 1160, many times tried for WMVI Mechanicsville (not Mechanicsville) in for a report, "The Station that remembers" said they. (I'd be interested if you get a response on that one, my mail to them NEVER gets a response!-DWS). Blessed holidays to all!

KARL JETER - 2115 SCARBROUGH ROAD - STONE MOUNTAIN, GA 30088

Greetings. Once again, I "missed the boat" on the theme MUSINGS, so I would like to belatedly tell of my brief career in radio, on the "other side". Actually, I can go back to my senior year in high school, when I joined the "radio staff". We produced a ½ hour show on WNNC-1230 Newton, NC every Sat. AM where I was 'editorial editor' (that job consisted of finding many ways to talk about school spirit, editorially speaking-hi!). Of course, we had to pay for our air time, so that was handled by cleaning the stadium after home football games Sat. AM before heading to the station. Upon arrival in Carrollton, GA in 71, with the help of my grandfather (who was the manager of RCA Victor records in the SE for many years, knew everyone at every radio station it seemed), I was employed at WLBB-1100/WBTR-92.1. In those days, both were in the same building, with the FM being fully automated and the AM live. Many a college night was spent monitoring Braves baseball on FM and inserting local spots at the appropriate time (often I would be studying in-between!). The highlight was a music program called "Excursion" which ran nightly from 11 PM til FM s/off at 1 AM. It was a typical "free form" rock show and I usually brought in and played my own records. My employment ended there in 72 and it wasn't until 73 that I became involved again, first in helping West GA College put WWGC-90.7 on the air with a mighty 10 watts and through a contact there, a brief stint doing Sunday mornings at WWCC-1440 in Berman, GA. That ended after a gospel group got into a fist-fight one morning in the lobby while deciding who was going to sing lead-I had had enough! Incidentally, the contact I mentioned is now-local-celeb "Rhubarb" Jones of Y106/104 morning fame, who worked at WWCC and attended West Georgia back then. So that sums up a stellar broadcasting career (hi!) where I never got above minimum wage! But, it was a lot of fun and I am glad I had the experience because it gives me some insight to what I am doing on the side of the radio where I now sit. Verie count is now up to 1457 with the addition of XEST-780, nice, full page SS letter received in 13 days!), WWLX-590, WECC-1190, WOKD-1480 all letters and a note scribbled on my letter and returned from KXOJ-1550. The CE of WOKD informed me that my reception was during their reduced power of 131 watts, not bad! While on the subject of radio careers & varies, I would like to tell one of my favorite stories: While still in NC, my senior year, I heard WLBB-1100 and mailed them a report to which I did not get a verie. Later that same year, after working there at WLBB for a few weeks, I was programming the FM automation machine one evening and noticed a piece of paper lying on top of the console. After taking it down, blowing off

about a half-inch of dust, I was astonished to find a WLBB letterhead with my NC address typed in and "Dear Karl...", that was it! So they had never finished the verie and had left it where it was forgotten! See what I mean about insight into how things work at a radio station in relation to DXing? I wonder how many other non-veries over the years ended up like that one! By the way, I never got that verie, had to settle for one from WLBB after I moved to Atlanta. Happy Holidays to all....73.

CHARLES A. TAYLOR (WD9INP) - PO BOX 346 - GRIFFON, NC 28530

Greetings! Dave Schmidt proposed MUSINGS from members who are in/were in broadcasting for DEC or thereabouts. I hadn't made any previous deadlines for any topic applicable to me, so why start now? I started out in broadcasting in 1965 as an operator at WFMS-95.5 Indianapolis back when it was 4.5 KW ERP w/a MYL format (before it had a name!). I worked there for minimum wage (\$1.75/hr) until I went into the Navy in Oct. 66. I also pirated/bootlegged from circa 64-66 alone as WXAB-730, 735, 870 & 900 (respectively) or with others as WISK-730, 1550 & 1110 (respectively) and WAKS, WARQ, & WQRK-1110, 1460, 1540-d/1550-n and 1560-d/1580-n (in no particular order). In the Navy, I was assigned parttime to AFRTS aboard the USS Hancock aircraft carrier, 68-69. After the Navy and in 72-73, I was a contract tech w/DWFA-801 Sorsogon, Philippines (my wife's hometown) and a frequency monitor. Then, in May 86, I started work at the VOA Greenville Relay Station, Greenville, NC where I am a transmitter tech. Before 1986, I had a total of 15 years military and civil service time, so VOA is just a continuation of my government time, but nonetheless, it is a draem of sorts to be associated with an organization which I have very much admired and respected since my teenage years as a SW DXer/SWL and as a regular listener overseas to VOA SW & MW. I work at GRS Plant B, which is located not far from the junction of US17 & NC102 (about 20 miles SW of Washington, NC). Both GRS Plant B & GRS Plant A each consist of 5, 500KW & 3, 250KW broadcast transmitters and 3 40KW SSB communications transmitters. We work rotating shifts of 7 evenings (4-12 midnight), 6 days (8A-4P) and 7 midnights (12-8A). Anyway, perhaps I'll continue Chuck's Saga in a future MUSING! 73 de CAT

DAVID A. KLEMP (KM4D6) - RT. 8, BOX 652 - LIVE OAK, FL 32060

Greetings from rural N FL. This is my 1st MUSE since 76. Rejoined NRC after a long absense due to moves & sickness. A short rundown of equipment used here: rig used is my Kenwood TS-440S w/a 400 foot LW oriented NW/SE. While not the greatest receiver on the AM band, it does a respectable job. Having just moved here from Tampa Bay, my interest in serious DXing has been renewed. From my old location in the 'metropolis', I must admit I was getting pretty discouraged. Between the strong, numerous locals and the Cubans piling in, it didn't leave to many open spots to listen. In addition, my wife became ill and was recommended to move out of the city. So, up to N FL I came ahead of my family, secured a job and bought 5 acres w/a mobile home. After 2 weeks here, I finally went to town to buy some wire. At one store, I secured a "started out" roll of #14 solid around 420 feet for \$18, quite a find I thought. Anyway, installed the entire roll hopping tree to tree, turned on the radio and got noise, big time! Back to noise, I thought. The "source" was found as being a connection in my own fuse box, added a ground to my rig and almost no noise. Making a tentative scan at 2 PM, I was surprised to hear WML & WSB coming in at about 55. I am presently working on a detailed bandscan from here, I hope to submit it soon. In closing, it's great to be back with the NRC and I am very interested in contact with members in the N FL area, since it seems this area has spotty reports at best. Happy Holidays, 73 (And a thank you for your report, David, and a welcome back is also in order. Let us know of your DX doings in your area!-DWS)

RICHARD CLARK - 9155 DYER, SUITE 221 - EL PASO, TX 79924

Hi everyone! Here is my once a year MUSING of what happened since my last report in Tenares, DR. Well, I have moved back here to El Paso after living 17 years in the DR with some rough conditions (including only 4 hours of electric per WEEK!). I have some information to give you about AM stations in the DR, 1250 is a new station testing w/no ID of who it is, just music. R. Enriqueillo is now on 1020, ex-1550. HIDL-1030, HIJJ-1110 are now silent in La Vega, R. Santiago is now on 640, ex-1270 but losing ground fast due to FM being #1 in the DR. Here in El Paso, KFNA-1060 is on the air now, La Nueva-1060, I see W. Palm Beach has a new SS station, 11-Q but the calls weren't heard, I was in a bus and the signal faded before long. I am glad to be back in the USA! 73's

RAY ARRUDA - 47 BURT STREET - ACUSHNET, MA 02743

We hope everyone had an enjoyable Thanksgiving & Christmas and that 1992 is filled with good health, prosperity & DX! It's been a LONG time in-between MUSINGS so a re-intro is in order....I'm 42 years old and have worked for New England Telephone as an Installer/Repairman for 21, married to Arlene 16 years, no children, member of the NRC since 1973/74. My interest in BCB DX goes back to 63 but I did not start sending for veries until 3/66. First verie received from KSL. Current totals from this location are 1337/995. Equipment currently in use:

Hammerlund HQ180A w/Steve Bohac modification purchased from DICK TRUAX in 81. A Hallicrafters SX122 purchased new in 70, Radio West Loop and 40 foot LW in attic. Also GE & Radio Shack TRF portables. Have established many fine relationships with NRC members coast to coast and have always appreciated the efforts that go into DX NEWS, which requires dedication by many people. Efforts of the CPC through the years have been the direct result of almost 200 of my best BCB verifications. The few conventions we've attended have been informative and most enjoyable. KARL JETER: The mystery caller in July 91 was a good friend and co-worker of mine Mr. Bob Lavoie, on vacation visiting his sister in Stone Mountain. We survived Hurricane Bob in August and a fierce ocean storm on Halloween w/only minor tree damage in our immediate neighborhood. 4 veries to close out 91: WNEA-740, WVNE-760, WBIV-1060 & WYAK-1270. So far this season, only one test has been heard, WGEF-1360 12/2 2:47-3 AM w/voice & CIDs, modern CW at times topping WDRC. We thank all those who sent letters and cards over the holidays and to those who attended our Thanksgiving GTG 11/30. All NRCers, especially you newer New England members are urged to attend next year. We are planning our Winter Visit to ERC's in Provincetown probably sometime during Jan. 92. One sad note, our beloved Misty, an xint poodle died peacefully & naturally on the morning of our GTG 11/30. She was 13½ & had been diabetic for the last 4 years of her life, we will miss her. 73's

BOB HARRISON - 166 RENNER AVENUE - UNION, NJ 07083-8839

Greetings, radio fans! After a great time at the Pittsburgh Labor Day '90 festivities, I was really looking forward to WV in '91. But for a number of personal reasons, I was unable to attend. The current recession finds me on unemployment for the first time ever, and you'd think I'd have more time for the hobby, but it's not the case. During a quick bandscan one evening, a few weeks ago, I was surprised to hear big band sounds on 1460, WCEI, dominating the channel. I was even more surprised when my report was answered by none other than the estimable "MUSINGS" editor himself! Thanks, Dave! It seems you have engineering duties for nearly every station on the east coast! (Not yet-hi!-DWS). Apart from that catch, the only DX to report is the WGEF-1360 test which came in very well here for WI #3. The Chicago radio history cahrts are a couple of years overdue, but I expect to get that project underway again as soon as I purchase a PC. Thanks to KERMIT GEARY, JIM ROGGENTINE, & THOMAS WHITE and MARK STRICKERT, too for all the helpful information they've supplied. JIM ROGGENTINE, are you still out there? I lost your new address! Here's to a happy & healthy 92 for everyone!

DAVE SCHMIDT - P.O. BOX 11502 - WILMINGTON, DE 19850

25 YEAR members of the NRC, get your reports together for the end of January 1992, we'll dedicate the 2/3 issue to you, deadline is 1/18 for that! Users of HOLLOW STATE equipment get those filaments warmed up as we'll have an issue for you during February (to be announced, date wise, later). Prior to Christmas, we brief trip was made to S Central VA for some work, in the area of Crewe/Blackstone/Farmville. One of the more interesting stations was WBBC-1440, a simulcast of 93.5 with a enjoyable oldies format. I believe this was the former WKLV which, back in the 60's, did not broadcast at all on Sundays! At night, it was good to hear a real live oldies format on WSAI-1360, who fared well into that area. Thanks to all for the nice turn out for this issue! 73's

Memorial Saturday for Traffic Reporter Ward

By Steve Shoup

JOURNAL STAFF WRITER

A memorial service for Brian Ward, the popular KOB-AM traffic reporter, will be held Saturday, the radio station announced Thursday. Ward died Wednesday after a rush-hour traffic accident in which the station's blue traffic vehicle slammed into a traffic-light pole at Second and Alameda NW. The accident occurred just before Ward was to give a live traffic report. The Office of the Medical Investi-

gator had not determined the cause of death Thursday.

But station personnel said Wednesday they think Ward may have suffered a heart attack about 5:15 p.m., causing him to lose control of the car. He was pronounced dead at University Hospital at 5:58 p.m.

KOB was flooded with calls all day Thursday from listeners expressing condolences and remembering Ward, who for more than eight years had guided motorists through the morning and afternoon

rush hours. Afternoon-show personality Mike Molony said he decided to "just sit around and talk" with the dozens of listeners who called in from Albuquerque, Belen, Los Lunas, Gallup and Santa Fe.

Molony said Ward was usually modest when accepting compliments, but would have been delighted by the attention.

"As much as he liked to perform, to be the center of attention, he would have liked it," Molony said in a telephone interview Thursday.

KOB didn't broadcast traffic reports Thursday, "out of a kind of tribute to him, plus, anyone who tried to do it would have had a tough time today."

He said traffic reporters from KOB-FM and KZRR were feeding traffic information to KOB-AM, which would have broadcast any serious problems.

The memorial is set for 10 a.m. Saturday at the Immanuel Presbyterian church, 114 Carlisle SE. Also, a memorial fund has been set up at Sunwest Bank in honor of Ward.
